APPENDIX I

EASTWEST PSEI TRACKER FUND
Fund Specifications

I. Investment Objective

The **EASTWEST PSEI TRACKER Fund** (the “Fund”) seeks to achieve investment returns that track the performance of the Philippine Stock Exchange Index ((hereinafter referred to as “PSEi”) by investing in a diversified portfolio of stocks comprising the PSEi in the same weights as the index. The Fund will be passively managed by EastWest Banking Corporation through its Trust and Asset Management Group. It is ideal for investors with a long-term investment horizon of at least ten (10) years.

Return Objective. The Fund aims to track the return of the **Philippine Stock Exchange Composite Index (PSEi)**.

- Description of the Benchmark
 - o The Philippine Stock Exchange (the “PSE”) Index measures the relative changes in the free float-adjusted market capitalization of the 30 largest and most active common stocks listed at the PSE. (Source: Philippine Stock Exchange, Inc.)
- Key Characteristic of the Benchmark
 - o The PSEi’s bucket of the top thirty (30) common stocks are based on a fixed set of rules that allow it to represent the general movement of the Philippine stock market.
- Relation of the Benchmark’s to the fund’s objectives or investment strategies
 - o The fund is designed for high-risk appetite investors looking for returns on their investments through capital appreciation of their investment. The fund will invest in Equities listed in the Philippine Stock Exchange. However, there is some misalignment between the fund and benchmark. The PSEi is not a Total Returns Index, nor is it net of taxes.
 - o There are immaterial misalignments between the benchmark and the Fund since the benchmark is not net of taxes nor a total returns index. The benchmark only tracks the price movements of its underlying securities. The Fund’s underlying securities may generate dividends which may be reinvested back into its Net Assets.
- Sources for more detailed information
 - o The Philippine Stock Exchange, Inc. — PSE. (<https://www.pse.com.ph/>).
 - o For additional information on the benchmark, investors may reach out to the Market Data Department of The Philippine Stock Exchange, Inc. via market.data@pse.com.ph.
 - o Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via indexhelp@bloomberg.net.
 - o Additional information on the benchmark and/or its administrator can be made available to the investors upon request.

3. Primarily short-term tradable fixed income securities issued, underwritten, or otherwise dealt by East West Bank and/or any of its subsidiaries, affiliates, their successor-in- interest or assignees, their directors, officers, stockholders, and related interest, and any of their trust and fund managed accounts, under such terms and conditions as the Trustee may deem to be in the best interest of the Fund or any such instrument as may be allowed under BSP regulations. Investment with related interests shall be in accordance with Section 414 (a) of the Manual of Regulations for Banks and Other Financial Institutions (MORB).
 4. Bank deposits, BSP special deposit account (SDA), or tradable debt instruments issued by BSP.
 5. Such other investments allowed under regulations issued by the BSP.
- C. The Fund shall be primarily invested in a portfolio of listed stocks in the Philippine Stock Exchange. Portfolio composition and weightings shall be the same as that of the PSEi.
- D. The combined exposure of a UITF to any entity and its related parties shall not exceed fifteen percent (15%) of the market value of the UITF; provided, that, a UITF invested partially or substantially, in exchange traded equity securities shall be subject to the 15% exposure limit to a single entity/issuer: provided further, that, in the case of an exchange traded equity security which is included in an index and tracked by the UITF, the exposure of the UITF to a single entity shall be the actual benchmark weighting of the issuer or 15%, whichever is higher. This limitation shall not apply to a non-risk asset as defined by BSP.
- E. The uninvested portion of the Fund may be invested and reinvested in the following:
1. Securities issued by or guaranteed by the Philippine government or BSP.
 2. Savings/checking accounts and time deposits in any bank or financial institution, including East West Bank provided that the principle of best execution shall be observed at all times and no bookings shall be made with related counterparties without considering at least two (2) competitive quotes from other sources as provided in MORB.
 3. Such other tradable investment outlets/categories as the BSP may allow.
- F. The Fund may avail of financial derivative instruments from time to time solely for the purpose of hedging risk exposures of the existing investments of the Fund in accordance with the Bank's risk management and hedging policy duly approved by the Trust Committee.

III. Qualified Participants: Requirements, Restrictions and Risk Profile

- A. Participation in the Fund shall be open to all individuals of legal age and corporations that share the general investment objective of the Fund who want to have exposure in Philippine stocks and who understand the investment risks involved when investing in Philippine equities. Investment in the fund shall be subject to a thirty (30) calendar day minimum holding period from the date of participation.
- B. **Risk profile of participants suitable to invest in the Fund: Aggressive.** Such client wants a portfolio which may provide appreciation of capital over time and client is willing to accept higher risks involving volatility of returns and even possible loss of investment in return for potential higher long-term results. HOWEVER, it must be noted that the effect of participation in the Fund on an investor's total portfolio risk will vary greatly, depending on the percentage of the portfolio invested in the Fund, the nature and riskiness of the other components of the portfolio and the correlation of these other components to Philippine stocks. It is therefore not uncommon for investors who would not characterize themselves as Aggressive or have a high risk tolerance questionnaire score to invest a measured portion of their portfolio in the Fund whilst maintaining an overall conservative or moderate portfolio.

The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of participation.

The Fund which shall be substantively invested in a diversified portfolio of listed Philippine shares of stock is exposed to the following risks:

- **Business Risk.** Stockholders as fractional owners of corporations share in the fortunes of the business. The rise and fall of stock prices often reflect the market's perception of the prospects of corporations and their management to reward stockholders for taking risks unique to each business. Business risk can be reduced through diversification.
- **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
- **Market Risk.** Market risk is the risk that the value of the fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
- **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
- **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
- **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
- **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by EW-TAMG.
