OTHER DISCLOSURES

RELATED PARTY TRANSACTIONS. The Fund’s target fund (PhilEquity Fund, Inc.) has holdings of Filinvest Land Inc. and East West Banking Corporation shares of stocks.

OUTLOOK AND STRATEGY In a surprise move, the Bangko Sentral reduced interest rates by 0.50% to 2.25% despite mentioning in previous statements that there is “too much” liquidity in the system. Unemployment last April hit an all-time high of 17.7% which translates to around 7.3 million Filipinos. This may be one of the reasons the BSP continues to ease monetary policy and the Philippine government has pledged to raise more funds to combat the COVID-19 induced recession. Expect markets to remain volatile as an increase in coronavirus cases may force the economy to lockdown once again.

PROSPECTIVE INVESTMENT. The Fund’s prospective investments, depending on availability and market development, may include but are not limited to, PhilEquity Fund, Time Deposits, Government Securities and tradable fixed income securities issued by local financial institutions or private corporations. Investment in the PhilEquity Fund may amount up to 100% of total assets but shall not fall below 90% of total assets of the Fund.
