## OTHER DISCLOSURES

**RELATED PARTY TRANSACTIONS.** The Fund has deposit placements with EastWest Bank amounting to P40.03 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Bond yields gained in August amidst the increase in the number of delta variant linked cases locally, and outlook downgrade from several research firms and credit rating agencies. A lower than expected July inflation rate of 4% also supported bond prices. The outlook continues to remain bleak amidst a surge in the delta variant cases. Given, the outlook we expect the central bank to remain accommodative to support the economy as the government imposes the Alert Level System nationwide. The Fund looks to invest in liquid fixed income securities and maintain portfolio duration within acceptable limits.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments may include securities issued or guaranteed by the Philippine government, tradable securities issued by financial institutions or private corporations, marketable instruments and loans that are traded in an organized exchange, bank deposits, similar collective investment vehicles subject to existing BSP regulations, and such other investment outlets/categories the BSP allow.

**OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS.** The Fund has deposits with EastWest Bank amounting to \$328,718. The investment outlets were approved by the Board of Directors. Moreover, all related party transactions are conducted on a best execution and arm’s length basis.

**OUTLOOK AND STRATEGY.** US Federal Reserve Chair Jerome Powell’s announcement that a bond purchase tapering may happen as early as November caused both US treasury yields to rise resulting in losses for the asset class. We expect yields to trade downwards in view of the uncertainty surrounding the Fed’s bond buying taper. The Fund looks to invest in liquid securities and maintain portfolio duration within acceptable limits.

**PROSPECTIVE INVESTMENTS.** The Fund’s prospective investments include securities issued by or guaranteed by the Philippine government, marketable fixed income securities issued or guaranteed by corporations and traded in an organized exchange, securities issued or guaranteed by any government of foreign country or any political subdivision of foreign country, securities issued or guaranteed by any supranational entity, loans traded in an organized exchange, savings and time deposits in any bank of financial institution, and other tradable investment outlets categories as the BSP may allow.

**OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS.** The Fund has deposits with EastWest Bank and EastWest Rural Bank amounting to P96.22 million. These investment outlets were approved by the Board of Directors. Likewise, all related party transactions are conducted on best execution and arm’s length basis.

**OUTLOOK AND STRATEGY.** The Philippine Stock Exchange Index rallied past 7,300-level during the month as 3Q corporate earnings slowly trickled in, and as investors cheered Metro Manila’s transition to Alert Level 3 from Alert Level 4 a month ago. However, the rally was short-lived after the Inter-Agency Task Force decided to extend Alert Level 3 status until mid-November and after majority of market participants cashed in gains ahead of the long weekend. We expect the PSEI to rebound as the government prepares for looser mobility restrictions in the coming months thus spur economic activities. The Fund will continue to track the performance of the Philippine Stock Exchange Index.

**PROSPECTIVE INVESTMENT.** The Fund’s prospective investments, depending on availability and market development, may include but are not limited to, stocks in the Philippine Stock Exchange Index, Time Deposits, Government Securities and tradable fixed income securities issued by local financial institutions or private corporations.
